INDEPENDENT AUDITOR'S REPORT

To the Board of Education of the
Bellevue Community School District:

Report on the Financial Statements

www.oconnorbrooks.com

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Bellevue Community School District, Bellevue, Iowa, as of and for the year ended June 30, 2016, and related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U. S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Bellevue Community School District as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis and the other required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Bellevue Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the seven years ended June 30, 2015 and for the year ended June 30, 2007 (none of which are presented herein) and expressed unmodified opinions on those financial statements. The financial statements for the year ended June 30, 2008 (which are not presented herein) were audited by other auditors whose report expressed unmodified opinions. The supplementary information included in Schedules 1 through 7 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 29, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Bellevue Community School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Bellevue Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2016. We encourage readers to consider this information in conjunction with the District's financial statements, which follow this section.

Financial Highlights

- General Fund revenues increased from \$6,483,663 in fiscal 2015 to \$6,703,223 in fiscal 2016, for a total increase of \$219,560. Revenues from property tax increased \$299,861, revenues from tuition (open enrollment, special education, preschool) decreased \$11,529, other local revenues decreased \$20,360; revenues from intermediate sources decreased \$333; revenues from state sources decreased \$9,190; while revenues from federal sources decreased \$34,901. The budgeted enrollment on which state aid and county property taxes are based on dropped 9 students which resulted in a budget guarantee of \$52,000 funded entirely by property taxes.
- General Fund expenditures increased from \$6,448,851 in fiscal 2015 to \$6,519,448 in fiscal 2016, a total increase of \$70,597. Salaries and benefits increased \$118,851, a result of a 4% employee salaries and benefits settlement increase. Purchased services decreased \$67,300. Supplies and equipment increased \$19,000.
- The District's General Fund balance increased from \$1,251,838 in fiscal 2015 to \$1,435,613 in fiscal 2016, a 14% increase from the prior year.
- The District's total tax levy rate for FY16 increased by 1¢. The General Fund tax rate increased \$1.15. The Management levy decreased by \$1.11 because an early retirement plan was not offered in FY16. The PPEL levy was decreased by 3¢ with a 4% income surtax.
- The state authorized a 1.25% increase in state supplemental assistance for school districts in FY16. The Bellevue School District realized \$37,234 in new monies.

Overview of the Financial Statements

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Bellevue Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report the District's operations in more detail than the government-wide statements by providing

information about the most significant funds. The remaining statements provide information about activities for which the District acts solely as a custodian for the benefit of those outside of the District.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, the District's proportionate share of the net pension liability and related contributions, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Supplementary Information provides detailed information about the nonmajor governmental funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

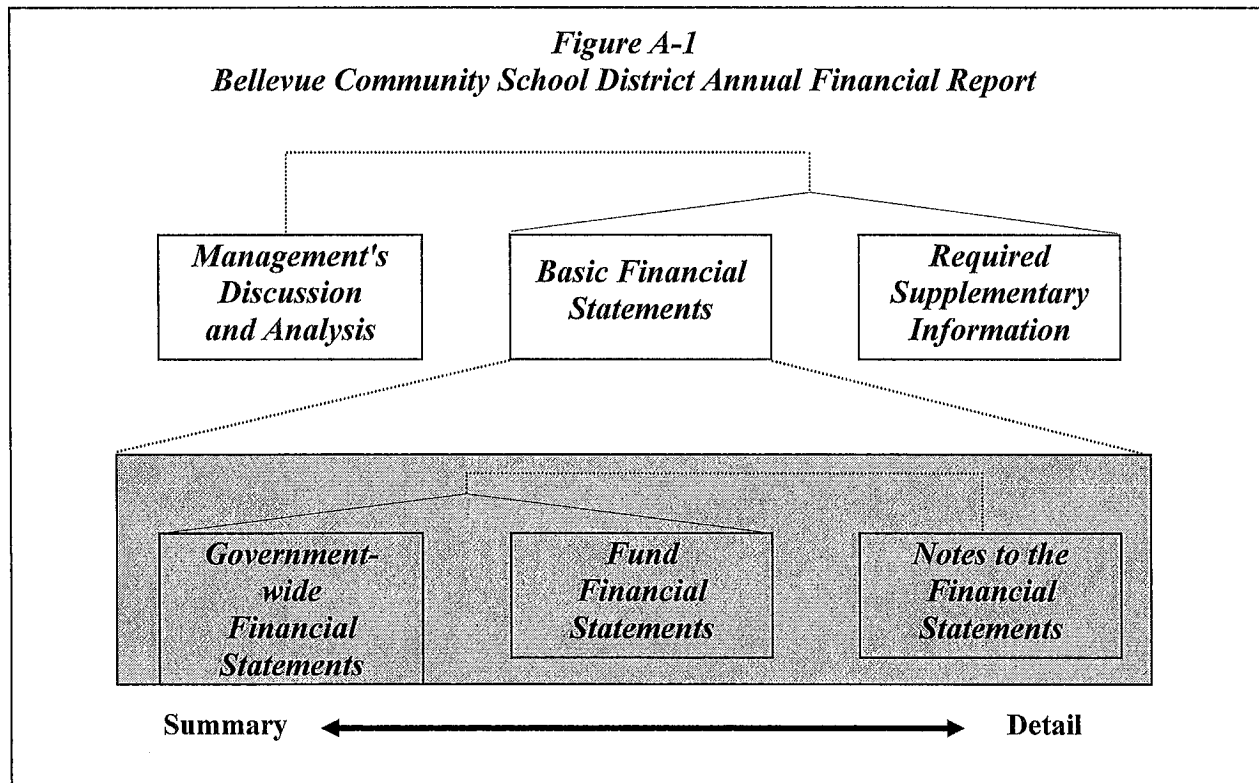

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of the management's discussion and analysis highlights the structure and contents of each of the statements.

Figure A-2				
Major Features of the Government-Wide and Fund Financial Statements				
	Government-wide Statements	Fund Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire district (except fiduciary funds)	The activities of the district that are not proprietary or fiduciary, such as special education and building maintenance	Activities the district operates similar to private businesses: food services is included here	Instances in which the district administers resources on behalf of someone else, such as scholarships and CPPC.

Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally, assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, short-term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how they have changed. Net position – the difference between the District's assets and liabilities – are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities*: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities*: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has three kinds of funds:

- *Governmental funds*: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information follows the governmental fund statements to explain the relationship or differences between the two statements.

The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Funds.

The required financial statements for governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

- *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Fund, one type of proprietary fund, is the same as its business type activities, but provides more detail and additional information, such as cash flows. The District's Enterprise Fund is the School Nutrition Fund.

Internal service funds, (the other kind of proprietary fund) are optional and available to report activities that provide supplies and services for other District programs and activities. At this time the District chooses not to use any internal service funds.

The required financial statements for proprietary funds include a statement of net position, a statement of revenues, expenses and changes in net position and a statement of cash flows.

- *Fiduciary funds:* The District is the trustee, or fiduciary, for assets that belong to others. These funds include Agency funds and Private-Purpose Trust funds.

Agency Fund - These are funds for which the District administers and accounts for certain federal and/or state grants on behalf of other Districts or Agencies and certain revenue collected for District employee purchases of pop and related expenditures. The District currently maintains an agency fund for the Community Partnership for the Protection of Children.

Private-Purpose Trust Fund - The District accounts for outside donations for scholarships for individual students in this fund.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position.

Financial Analysis of the District as a Whole

Figure A-3 provides a summary of the District's net position for the year ended June 30, 2016 compared to June 30, 2015.

Figure A-3							
Condensed Statement of Net Position							
	Governmental Activities		Business-type Activities		Total School District		Total Change June 30, 2015 - 2016
	June 30,		June 30,		June 30,

Other liabilities	746,999	690,522	6,193	6,185	753,192	696,707	-7.5%
Total liabilities	\$ 7,343,181	\$ 7,597,110	\$ 78,869	\$ 93,988	\$ 7,422,050	\$ 7,691,098	3.6%
Deferred inflows of resources	\$ 3,718,624	\$ 3,140,271	\$ 26,267	\$ 7,692	\$ 3,744,891	\$ 3,147,963	-15.9%
Net Position:							
Net investment in capital assets	\$ 4,282,354	\$ 4,379,963	\$ 38,169	\$ 34,643	\$ 4,320,523	\$ 4,414,606	2.2%
Restricted	1,896,320	1,993,356	-	-	1,896,320	1,993,356	5.1%
Unrestricted	(1,715,660)	(1,412,253)	(15,929)	14,344	(1,731,589)	(1,397,909)	-19.3%
Total Net Position	\$ 4,463,014	\$ 4,961,066	\$ 22,240	\$ 48,987	\$ 4,485,254	\$ 5,010,053	11.7%

An increase of 11.7% or just over \$524 thousand in the District's net position is evidenced in Figure A-3.

The major capital asset additions in 2015-2016 were computers, printers, projectors, copiers, and completion of the MS/HS science room remodel. Capital asset retirements included copiers, miscellaneous equipment, and vehicles. Capital assets listed are net of depreciation.

Restricted net position represents resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net position increased \$97,036 from the prior year mainly due to an increase in the Capital Projects fund ending balance.

Unrestricted net position is the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements. The unrestricted net position increased by \$333,000.

Figure A-4 shows the changes in net position for the year ended June 30, 2016 compared to the year ended June 30, 2015.

Figure A-4 Changes in Net Position from Operating Results

Net Position Beginning of Year, as Restated	3,714,736	4,463,014	(6,585)	22,240	3,708,151	4,485,254	21.0%
Net Position End of Year	<u>\$ 4,463,014</u>	<u>\$ 4,961,066</u>	<u>\$ 22,240</u>	<u>\$ 48,987</u>	<u>\$ 4,485,254</u>	<u>\$ 5,010,053</u>	<u>11.7%</u>

As shown in figure A-4, net position increased by \$524,799 in 2015-2016. Property and other taxes and unrestricted state aid account for 75% of the total revenue in governmental activities. While charges for services and operating grants accounted for almost 100% of the revenue in the business type activities.

The District's expenses primarily relate to instruction and support services, which account for over 90% of the total expenses in the governmental funds.

Governmental Activities

The following table presents the total and net cost of the District's major governmental activities: instruction, support services, non-instructional programs and other expenses.

Figure A-5 Total and Net Cost of Governmental Activities						
	Total Cost of Services		Percentage Change	Net Cost of Services		Percentage Change
	2015	2016	2015-2016	2015	2016	2015-2016
Instruction	4,327,450	4,496,069	3.9%	2,823,322	2,990,345	5.9%

Non-instructional programs	10,657	8,638	-18.9%	10,657	8,638	-18.9%
Other expenses	517,372	548,999	6.1%	241,868	278,443	15.1%
Total	<u>7,193,878</u>	<u>7,425,233</u>	<u>3.2%</u>	<u>5,306,404</u>	<u>5,548,955</u>	<u>4.6%</u>

For the year ended June 30, 2016:

- The cost financed by users of the District's programs was \$869,604.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$997,674.
- The net cost of governmental activities was financed with \$3,563,623 in various taxes, \$2,377,780 in state foundation aid and \$105,604 in miscellaneous income.

Business Type Activities

Revenues of the District's business type activities were \$341,032 and expenses were \$314,285. The District's business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

Financial Analysis of the District's Funds

As previously noted, the Bellevue Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported combined fund balances of \$2,969,477.

Governmental Fund Highlights

- In the District's General Fund, revenues and expenditures increased which resulted in a \$183,775 or 15% increase in fund balance. The tax rate between the two years for the general fund remained steady.
- The Statewide Sales, Services and Use Tax Fund balance increased from \$721,593 to \$903,548. This increase is due to trying to build a balance for possible future major infrastructure projects such as resurfacing parking lots, buying additional land, remodeling the high school music room or elementary building.

Proprietary Fund Highlights

- The School Nutrition Fund net position increased from \$22,240 at June 30, 2015 to \$48,987 at June 30, 2016. Daily lunch and breakfast prices remained steady.

Budgetary Highlights

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds, except its private-purpose trust and agency funds. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis. A schedule showing the original budget amounts compared to the District's actual financial activity is included in the required supplementary information section of this report. Since the District does not adopt a budget for individual funds, budgets for the General Fund and major Special Revenue Funds are not presented in the budgetary comparison on the following pages.

Legal Budgetary Highlights

The District's total actual revenues were within \$28,000 of the total budgeted revenues, a variance of .3%.

Total expenditures were \$3.2 million less than budgeted due primarily to the District's practice to budget expenditures at the maximum authorized spending authority for each fund to avoid the time and expense of amending the budget. The District then manages or controls spending through its line-item budget. As a result, the District's certified budget should always exceed the actual expenditures during the year as it did in 2015-2016.

Capital Asset and Debt Administration

Capital Assets

At June 30, 2016, the District had invested \$8.2 million, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, technology and transportation equipment. (See Figure A-6) This amount represents a net decrease of 1.26% from last year. Depreciation expense for the year exceeded \$427,000.

The original cost of the District's capital assets was over \$14 million. Governmental funds account for over 99% of these assets with less than 1% in the Proprietary, School Nutrition Fund.

Capital assets added to the district's inventory during the year included computers, printers, projectors, copiers, and completion of the MS/HS science room remodel. Capital asset retirements included copiers, miscellaneous equipment, and vehicles.

Figure A-6

Long-Term Debt

At June 30, 2016, the District had \$3,915,000 in revenue bonds outstanding. This represents an decrease of approximately 5% from last year. (See Figure A-7) These bonds were issued for the high school multi-purpose room and commons area addition/remodel.

	Outstanding Long-Term Obligations		Total Change June 30, 2015-2016
	Total District June 30,		
	2015	2016	
Revenue bonds	\$4,115,000	\$3,915,000	-4.9%
Total	\$4,115,000	\$3,915,000	-4.9%

Economic Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- Funding levels for Iowa K-12 school districts depend principally on two factors: first, changes in enrollment and second, changes in per pupil district cost. Per pupil district cost is an amount annually set by state government. This amount has historically been determined by applying a percentage increase to the prior year's amount. The percentage increase was 2.25% for FY17, 1.25% for FY16, 4% for FY15, 2% with a 2% "supplemental" funding for FY14, 2.0% for FY13, and 0% for FY12. This percentage amount has a substantial impact on district-funding levels. At this time the legislature has yet to set the funding percentage change for FY18 and FY19 as required by law.
- The certified enrollment count taken in September of 2016 was 574.2 which was an increase of 13 students from the prior year's count. Since the 1998-1999 fiscal year (the highest enrollment year in recent history), Bellevue has lost a total of 147 students on its certified count. Future enrollment stability is a critical element in maintaining a sound financial foundation.
- The Board's goal is to maintain a 10-15% solvency ratio in the General Fund. The solvency ratio measures the amount of readily available unspent resources relative to the district's total general fund revenue. The District has met or exceeded that goal in the last several years. FY16 ending solvency ratio was 17%.
- Bellevue, along with Maquoketa, entered into a whole-grade sharing agreement with Andrew CSD for the 2011-2012 school year for grades 9-12. This sharing agreement was renewed for an additional 3 years through the 2016-2017 school year. In FY17 Bellevue gained a total of 20 students (a decrease of 2 students from the prior year) from Andrew. Bellevue receives 92% of the State District Cost per pupil for each of those students for FY17.

- The District is in negotiations with the teachers' union for the FY18 school year. The District negotiated a 4% total package increase for FY17 and received 1% in new monies. Salary and benefits represent over 80% of general fund expenditures. Settlements in excess of "new money" or allowable growth in state funding will have an adverse effect on the District's General Fund budget and related fund balance. The District is expecting a reduction in its unspent balance for FY17. The unspent balance is defined as unspent spending authority; therefore it does not necessarily represent an actual cash balance. It is crucial to note that unspent balance dollars can only be spent once. Dedicating these resources to ongoing costs, such as salaries, would require some other source of revenue or an expenditure adjustment for any subsequent year.
- The district pays all but \$960 per year of full-family insurance for all full-time certified employees and 100% of any single policy. The health insurance increases in the last two years have been 6.27% and 4.29% . The increase for FY18 is unknown at this time. The "Affordable Care Act" has added several fees to the cost of insurance per member. Health insurance increases in the past have been as high as 20%. Unanticipated high insurance increases after settlement of the union contract could negatively affect the financial health of the District.
- The state requires public schools to bus nonpublic students in their district, but has failed to allocate enough money since 2001-2002 to cover the entire cost of nonpublic transportation. Unless legislation increases the nonpublic allotment in the future, the shortages will continue. Over the last 20 years, the District has been shorted over \$189,000 in nonpublic transportation reimbursements. The district has no other options to recoup those dollars.
- The District has participated in the instructional support levy since 1997-98. For this levy, schools are allowed to levy for up to an additional 10% of their combined regular program district costs, with the state funding 25% and property tax funding 75% of this levy. When the district began this levy, the state was only funding 55% of their portion. In FY17, the state funded 0% of their portion. Over the last 20 years, this has resulted in state dollars lost of over \$1,100,000.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Penny Medinger, District Secretary/Treasurer and Business Manager, Bellevue Community School District, 1601 State Street, Bellevue, Iowa, 52031-9766.

BELLEVUE COMMUNITY SCHOOL DISTRICT
 BELLEVUE, IOWA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
 CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 YEAR ENDED JUNE 30, 2016

Change in fund balances - total governmental funds \$ 293,196

*Amounts reported for governmental activities in the statement
of activities are different because:*

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation of \$(423,469) exceeded capital outlays of \$326,321 in the current period. (97,148)

In the statement of activities, only the gain or loss on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the capital assets sold. (5,264)

Income surtaxes not collected for several months after year end are not considered available revenue and are recognized as deferred inflows of resources in the governmental funds. 11,469

Future long-term debt principal payments accrued and reported as expenditures in the governmental fund financial statements are not shown as reductions in long-term debt in the government-wide financial statements until payment is made to the bondholders. This is the amount by which the current year accrual exceeds the amount paid to the bondholders. 200,000

The current year District IPERS contributions are reported as expenditures in the governmental funds, but are reported as a deferred outflow of resources in the Statement of Net Position. 349,987

Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in governmental funds. These include pension expense and the net increase in other post employment benefits. (254,188)

Change in net assets of governmental activities \$ 498,052

See notes to financial statements.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 1 - Summary of Significant Accounting Policies:

The Bellevue Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-kindergarten through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Bellevue, Iowa, and the predominate agricultural territory in Jackson County. The District is governed by a Board of Education whose members are elected on a nonpartisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Bellevue Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. The Bellevue Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Jackson County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for services.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 1 - Summary of Significant Accounting Policies: (Continued)

B. Basis of Presentation (Continued)

The Statement of Net Position presents the District's nonfiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or are imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. Combining schedules are also included for the Capital Projects Fund accounts.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 1 - Summary of Significant Accounting Policies: (Continued)

B. Basis of Presentation (Continued)

The District reports the following major proprietary fund:

The Enterprise, School Nutrition Fund is used to account for the food service operations of the District.

The District also reports fiduciary funds which focus on net position and changes in net position. The District's fiduciary funds include the following:

The Private Purpose Trust Fund is used to account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through scholarship awards.

The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations and other governments. The Agency Fund is custodial in nature, assets equal liabilities, and does not involve measurement of results of operations.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 1 - Summary of Significant Accounting Policies: (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications - committed, assigned and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 1 - Summary of Significant Accounting Policies: (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Equity

For purposes of the statements of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable - Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½ % per month penalty for delinquent payments; is based on January 1, 2014, assessed property valuations; is for the tax accrual period July 1, 2015 through June 30, 2016, and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2015.

Due From Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 1 - Summary of Significant Accounting Policies: (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Equity

Capital Assets - Capital assets which include property, furniture, and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

<u>Asset Class</u>	<u>Amount</u>
Land	All
Buildings	\$ 5,000
Improvements other than buildings	5,000
Furniture and Equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	500

Capital assets are depreciated using the straight line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings	50 years
Improvements other than buildings	20 years
Furniture and equipment	5-7 years

Deferred Outflows of Resources - Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the employer's reporting period.

Due to Other Governments - Due to other governments represents amounts due to other governmental units for various purposes such as supplies, utilities, and special education tuition.

Salaries and Benefits Payable - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 1 - Summary of Significant Accounting Policies: (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Equity

Compensated Absences - District employees accumulate sick leave and vacation for subsequent use. These accumulations are not recognized as expenditures by the District until used. The District's policy prohibits payoff of accumulated benefits at termination of employment. Consequently, no liability at June 30, 2016 has been accrued.

Unearned Revenue - Unearned revenue consists of unspent grant proceeds and student lunch deposits.

Long-term Liabilities - In the government-wide and proprietary financial statements, long-term debt and other long-term obligations are reported as liabilities.

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Inflows of Resources - Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenues) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred inflows of resources consist of property tax receivable, income surtax and other receivables not collected within sixty days after year end.

Deferred inflows of resources in the Statement of Net Position consist of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied and the unamortized portion of the net difference between projected and actual earnings on pension plan investments.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 1 - Summary of Significant Accounting Policies: (Continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Equity

Fund Equity - In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable - Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Unassigned - All amounts not included in the preceding classifications.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2016, expenditures did not exceed the amount budgeted and the District did not exceed its General Fund unspent authorized budget.

F. Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 - Cash and Cash Equivalents:

The District's deposits in banks at June 30, 2016, were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 3 - Interfund Transfers:

Transfer to	Transfer from	Amount
Debt service	Capital projects	\$ 372,960

Transfers generally move revenues from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

Note 4 - Due From and Due to Other Funds:

Receivable Fund	Payable Fund	Amount
General	Nutrition	\$ 6,055

The Nutrition Fund is repaying the General fund for accrued wages and benefits. The balance is to be repaid by June 30, 2017.

Note 5 - Categorical Funding:

The District's restricted fund balance for categorical funding at June 30, 2016 is comprised of the following programs:

Programs	Amount
Salary improvement plan	\$ 22,346
Voluntary preschool program	160,820
Professional development for model core curriculum	22,198

Total		<u>\$ 3,915,000</u>	<u>\$ 1,317,880</u>	<u>\$ 5,232,880</u>

The local option sales and services tax revenue bonds were issued for the purpose of defraying a portion of the cost of school infrastructure. The bonds are payable solely from proceeds of the local option sales and services tax revenues received by the District. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District.

The resolution providing for the issuance of the local option sales and services tax revenue bonds includes the following provisions:

- (a) Interest on the bonds is payable on July 1 and January 1 in each year beginning July 1, 2010, to the registered owners thereof. The Bonds will mature serially on July 1. Bonds maturing after July 1, 2021, may be called for redemption by the Issuer and paid before maturity on said date or any date thereafter, from any funds regardless of source, in whole or from time to time in part, in any order of maturity and within an annual maturity by lot, at par plus accrued interest to date of call.
- (b) The Bond Resolution establishes a Project Fund (the "Project Fund") into which the net Bond proceeds shall be deposited. Moneys in the Project Fund shall be used for the purpose of aiding in the financing of the Project, and shall also be available for the payment of the principal of or interest on the Bonds at any time that other funds of the Project shall be insufficient for that purpose. Any Project Fund moneys used to pay debt service on the Bonds shall be repaid to the Project Fund at the earliest opportunity.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 7 - Long-Term Liabilities: (Continued)

- (c) The Bond Resolution also establishes the Local Option Sales and Services Tax Revenue Fund (the "Revenue Fund"), into which shall be deposited all local option sales taxes when received from the State. Moneys in the Revenue Fund shall be disbursed to the following funds and accounts in the following order of priority.
- (d) Interest and principal on the Bonds (and any Parity Obligations, as defined below) will be paid from the Sinking Fund (the "Sinking Fund"). The amount to be deposited in the Sinking Fund shall be equal to the amount of principal and interest coming due on the Bonds, and any other obligations payable from the Sales Services and Use Tax revenues on a parity with the Bonds ("Parity Obligations") during the fiscal year and shall be used solely for the purpose of paying debt service on the Bonds and any Parity Obligations.
- (e) The Bonds are secured by the Reserve Fund established under the Bond Resolution which Reserve Fund will be funded from proceeds of the Bonds. So long as any Bonds are outstanding, the Issuer is required to maintain an amount on deposit in the Reserve Fund equal to the lesser of (a) the sum of 10% of the proceeds of the Bonds; (b) 125% of the average annual debt service on such Bonds or (c) the maximum annual debt service on such Bonds (the "Reserve Fund Requirement").

The District did comply with all of the provisions during the year ended June 30, 2016. The amounts required for the Sinking Fund and Reserve Fund are accounted for in the Capital Projects Fund.

Note 8 - Pension Plan:

Plan Description – IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive, P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code Chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 8 - Pension Plan: (Continued)

Pension Benefits – A Regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member's highest five-year average salary, except members with service before June 30, 2012 will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month the member receives benefits before the member's earliest normal retirement age. For service earned on or after July 1, 2012, the reduction is 0.50% for each month the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization method. Statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 8 - Pension Plan: (Continued)

payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2016, pursuant to the required rate, regular members contributed 5.95% of covered payroll and the District contributed 8.93% of covered payroll, for a total rate of 14.88%.

The District's contributions to IPERS for the year ended June 30, 2016 were \$359,926.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2016, the District reported a liability of \$2,824,491 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2015, the District's collective proportion was 0.057170%, which was a decrease of 0.001504 from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the District recognized pension expense of \$233,500. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
	-----	-----
Difference between expected and actual experience	\$ 42,674	\$ ---
Change in assumptions	77,765	---
Net difference between projected and actual earnings on pension plan investments	---	235,071
Changes in proportion and differences between District contributions and proportionate share of contributions	---	24,826
District contributions subsequent to the measurement date	359,926	---
	-----	-----
	\$ 480,365	\$ 259,897
	=====	=====

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 8 - Pension Plan: (Continued)

\$359,926 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30, -----	
2017	\$ (84,044)
2018	(84,044)
2019	(84,044)
2020	113,005
2021	(330)

	\$ (139,457)
	=====

There were no non-employer contributing entities at IPERS.

Actuarial Assumptions – The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement as follows:

Rate of inflation (effective June 30, 2014)	3.00% per annum
Rates of salary increase (effective June 30, 2010)	4.00 to 17.00% average, including inflation. Rates vary by membership group.
Long-term investment rate of return (effective June 30, 1996)	7.50% compounded annually, net of investment expense, including inflation
Wage growth (effective June 30, 1990)	4.00% per annum, based on 3.00% inflation and 1.00% real wage inflation.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Mortality rates were based on the RP-2000 Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The long-term expected rate of return on IPERS' investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 8 - Pension Plan: (Continued)

allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Core Plus Fixed Income	28%	2.04%
Domestic equity	24	6.29
International equity	16	6.75
Private equity/ debt	11	11.32
Real estate	8	3.48
Credit opportunities	5	3.63
U.S. TIPS	5	1.91
Other real assets	2	6.24
Cash	1	(0.71)
Total	<u>100%</u>	

Discount Rate – The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, IPERS’ fiduciary net position was projected to be available to make all projected future benefit payments to current active and inactive employees. Therefore, the long-term expected rate of return on IPERS’ investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District’s Proportional Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower (6.5%) or 1% higher (8.5%) than the current rate.

	1% Decrease (6.5%)	Discount Rate (7.5%)	1% Increase (8.5%)
District’s proportionate share of the net pension liability	\$ 4,945,176	\$ 2,824,491	\$ 1,034,481

IPERS’ Fiduciary Net Position – Detailed information about IPERS’ fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS’ website at www.ipers.org.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 8 - Pension Plan: (Continued)

Payables to IPERS – At June 30, 2016, the District reported payables to IPERS of \$40,554 for legally required employer contributions and \$27,021 for legally required employee contributions which had been withheld from employee wages which had not yet been remitted to IPERS.

Note 9 - Other Postemployment Benefits (OPEB):

Plan Description – The District operates a single-employer retiree benefit plan which provides medical and prescription drug benefits to retirees and their spouses. There are 61 active and 6 retired members of the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug benefits are provided through a fully-insured plan with Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit rate subsidy and an OPEB liability.

Funding Policy – The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation – The District’s annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding which, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District’s annual OPEB cost for the year ended June 30, 2016, the amount actually contributed to the plan and changes in the District’s net OPEB obligation:

Annual required contribution	\$ 47,000
Interest on net OPEB obligation	6,000
Adjustment to annual required contribution	(17,000)

Annual OPEB cost	\$ 36,000
Contributions made	(8,000)

Increase in net OPEB obligation	\$ 28,000
Net OPEB obligation beginning of year	226,900

Net OPEB obligation end of year	\$ 254,900
	=====

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 9 - Other Postemployment Benefits (OPEB): (Continued)

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2012. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2016.

For the year ended June 30, 2016, the District contributed \$0 to the medical plan. Plan members eligible for benefits contributed \$48,155, or 100% of the premium costs.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2016 are summarized as follows:

Year Ended June, 30 -----	Annual OPEB Cost -----	Percentage of Annual OPEB Cost Contributed -----	Net OPEB Obligation -----
2014	53,000	---%	183,900
2015	50,000	---%	226,900
2016	36,000	---%	254,900

Funded Status and Funding Progress – As of July 1, 2015, the most recent actuarial valuation date for the period July 1, 2015 through June 30, 2016, the actuarial accrued liability was \$325,000, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$325,000. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$4,062,000 and the ratio of the UAAL to covered payroll was 8.0%. As of June 30, 2016, there were no trust fund assets.

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016**

Note 9 - Other Postemployment Benefits (OPEB): (Continued)

As of the July 1, 2015 actuarial valuation date, the entry age actuarial cost method was used. The actuarial assumptions include a 2.50% discount rate based on the District's funding policy. The projected annual medical trend rate is 6%. The UAAL is being amortized as a level dollar on a closed basis over 30 years.

Note 10 - Risk Management:

Bellevue Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 11 - Area Education Agency:

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the Area Education Agency. The District's actual amount for this purpose totaled \$245,454 for the year ended June 30, 2016, and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

Note 12 - 28E Agreements:

On January 10, 2012, the District entered into a 28E Agreement with the Andrew Community School District. The purpose of the agreement is to establish and implement the Facility Improvement Program for Andrew students attending Bellevue secondary schools under the parties' Sharing Agreement.

On September 14, 2015, the District entered into a 28E agreement with the City of Bellevue and Marquette Catholic School System. The purpose of the agreement is to provide terms and conditions upon which the City will share the use of the Softball and Baseball diamonds located at Cole Park in Bellevue with Bellevue Community School District and Marquette Catholic School System, and upon which the Bellevue Community School District and Marquette Catholic School System will assist in making the improvements to the Facility.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

Note 13 - Subsequent Events:

The District entered into a commitment in October, 2016 in the amount of \$87,724 for replacement of the Middle School roof.

The District entered into a commitment in November, 2016 in the amount of \$13,954.38 for a new phone system for the district.

The District's management has evaluated events and transactions for potential financial statement recognition or disclosure through January 29, 2017, the date the financial statements were available to be issued.

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
- BUDGETARY REPORTING
YEAR ENDED JUNE 30, 2016**

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on a GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides District expenditures in the General Fund that may not exceed the amount authorized by the school finance formula.

During the year ended June 30, 2016, expenditures did not exceed the amounts budgeted and the District did not exceed its General Fund unspent authorized budget.

BELLEVUE, IOWA**

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
- PENSION LIABILITY
YEAR ENDED JUNE 30, 2016**

Changes of benefit terms:

Legislation enacted in 2010 modified benefit terms for Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3% per year measured from the member's first unreduced retirement age to a 6% reduction for each year of retirement before age 65.

Legislative action in 2008 transferred four groups – emergency medical service providers, county jailers, county attorney investigators, and National Guard installation security officers – from Regular membership to the protection occupation group for future service only.

Changes of assumptions:

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25 percent to 3.00 percent.
- Decreased the assumed rate of interest on member accounts from 4.00 percent to 3.75 percent per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Moved from an open 30 year amortization period to a closed 30 year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20 year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration.

The 2007 valuation adjusted the application of the entry age normal cost method to better match projected contributions to the projected salary stream in the future years. It also included in the one-year lag between the valuation date and the effective date of the annual actuarial contribution rate in the calculation of the UAL amortization payments.

To the Board of Education of
Bellevue Community School District

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Bellevue Community School District as of and for the year ended June 30, 2016, and the related notes to financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 29, 2017. In addition, we have disclaimed an opinion on the required supplementary information.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Bellevue Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Bellevue Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Bellevue Community School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings, we identified deficiencies in internal control we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies described in Part I of the accompanying Schedule of Findings as items I-A-16 through I-C-16 to be a material weaknesses. Items I-A-16 was noted in the prior year audit.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control which is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in Part I of the accompanying Schedule of Findings and Questioned Costs as item I-D-16 and I-E-16 to be a significant deficiencies. Item I-D-16 was also noted in the prior year audit.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Bellevue Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of noncompliance or other matters that are described in Part II of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2016, are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Bellevue Community School District's Responses to Findings

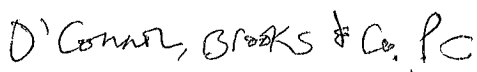

Bellevue Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings. Bellevue Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Bellevue Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

O'CONNOR, BROOKS & CO., P.C.

Dubuque, Iowa
January 29, 2017

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**SCHEDULE OF FINDINGS
YEAR ENDED JUNE 30, 2016**

Part I: Findings Related to the Financial Statements:

INSTANCES OF NONCOMPLIANCE:

No matters were noted.

MATERIAL WEAKNESSES:

I-A-16 Segregation of Duties - One important aspect of internal accounting control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. Lack of segregation of duties could result in errors or unauthorized transactions. We noted that the board secretary performs substantially all of the significant accounting functions.

Recommendation - We realize that with a limited number of office employees, segregation of duties is difficult. We recommend that the bank statements continue to be delivered directly to the Superintendent for review before being given to the secretary for reconciliation. The District should also continue to review its operating procedures to obtain the maximum internal accounting control possible under the circumstances.

Response - We will investigate available alternatives and implement as soon as possible.

Conclusion - Response accepted.

I-B-16 Required Signatures - The Event Admissions/Ticket Forms requires three signatures to complete the process of closing out the admissions at the end of an event. All three signatures were not present on all the "Event Admission/Ticket Forms". This reduced oversight could result in theft or misappropriation of assets.

Recommendation - The District should ensure that all signatures are being obtained on these forms as required.

Response - The District will continue to require the three signatures and double check that all three are there at the end of the event.

Conclusion - Response accepted.

BELLEVUE, IOWA**

**SCHEDULE OF FINDINGS
YEAR ENDED JUNE 30, 2016**

Part I: Findings Related to the Financial Statements:

I-C-16 Fixed Assets – Prior year construction in progress costs were not included in the final capitalized cost of a remodeling project. This could cause the District's assets as well as future depreciation expense to be misstated.

Recommendation - The district should put in place procedures to ensure the correct amount is recorded to fixed assets when construction in progress is involved.

Response - The District will implement procedures for recording assets that previously were recorded as “construction in progress”.

Conclusion – Response accepted.

SIGNIFICANT DEFICIENCY:

I-D-16 Documentation for Purchases - The District has established several credit card accounts to allow District employees to purchase supplies and other items that require a credit card to purchase. The vendor submits a monthly statement of these charges to the District for payment. The District does require the employees to submit the detailed receipt issued at the time of the purchase. It was noted that not all purchases had detailed receipts. Without detailed documentation, unnecessary purchases or misclassification of expenses could occur. In addition, detailed documentation is needed to determine whether the purchase meets the test of public purpose.

Recommendation - The District should require detailed documentation for all purchases.

Response - The District will review the documentation needed with all staff that use the credit card, continue to require detailed receipts and follow up as necessary to get the receipts or ensure that staff understand the procedures.

Conclusion - Response accepted.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**SCHEDULE OF FINDINGS
YEAR ENDED JUNE 30, 2016**

Part I: Findings Related to the Financial Statements:

I-E-16 Documentation for Substitute Bus Drivers and Cooks – The District has an unwritten policy of paying substitute bus driver and substitute cooks the previous year wage rate for the employee they are covering for. Without a written policy, there could be confusion as to the proper pay amount for substitute bus drivers and substitute cooks.

Recommendation- The District should have a written policy for the payment of substitute bus drivers and substitute cooks.

Response – The District will look into approving a written policy for substitute pay for classified employees.

Conclusion- Response accepted.

Part II: Other Findings Related to Statutory Reporting:

II-A-16 Certified Budget - Disbursements for the year ended June 30, 2016, did not exceed the amount budgeted.

II-B-16 Questionable Disbursements – No expenditures we believe may not meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979 were noted.

II-C-16 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

II-D-16 Business Transactions - No business transactions between the District and District officials or employees were noted.

II-E-16 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.

**BELLEVUE COMMUNITY SCHOOL DISTRICT
BELLEVUE, IOWA**

**SCHEDULE OF FINDINGS
YEAR ENDED JUNE 30, 2016**

Part II: Other Findings Related to Statutory Reporting: (Continued)

- II-F-16 Board Minutes – No transactions requiring Board approval which had not been approved by the Board were noted.
- II-G-16 Certified Enrollment - No variances in the basic enrollment data certified to the Department of Education were noted.
- II-H-16 Supplementary Weighting - No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- II-I-16 Deposits and Investments - No instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.
- II-J-16 Certified Annual Report - The Certified Annual Report was certified timely to the Iowa Department of Education.
- II-K-16 Student Activity Fund - The Student Activity Fund had two accounts with deficit balances at June 30, 2016.
- Recommendation - The District should continue to monitor these accounts and investigate alternatives to eliminate any deficits.
- Response - We will continue to monitor these accounts.
- Conclusion - Response accepted.
- II-L-16 Categorical Funding - No instances of categorical funding being used to supplant rather than supplement other funds were noted.

BELLEVUE, IOWA**

**SCHEDULE OF FINDINGS
YEAR ENDED JUNE 30, 2016**

Part II: Other Findings Related to Statutory Reporting: (Continued)

II-M-16 Statewide Sales, Services and Use Tax – No instances of non-compliance with the allowable uses of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2016, the District reported the following information for the statewide sales, services and use tax revenue in the District's CAR:

Beginning balance		\$ 721,593
Statewide sales and services tax revenue	\$ 544,911	
Other	23,626	568,537
	-----	-----
		\$ 1,290,130
Expenditures/transfers out:		
School infrastructure:		
Construction	\$ 1,000	
Equipment	12,622	
Transfer to debt service fund	372,960	386,582
	-----	-----
Ending balance		\$ 903,548
		=====

For the year ended June 30, 2016, the District did not reduce any levies as a result of the monies received under Chapter 423E or 423F of the Code of Iowa.
